

THINK BEFORE YOU FLUSH

Improper disposal of personal, household and industrial materials can clog pipes, leading to sewage backups and overflows that not only damage your home and the environment, but also cause damage to public utilities, resulting in costly repairs.

NEVER FLUSH THESE ITEMS:

tampons
& maxi pads

diapers

disposable razors & blades

grease &
cooking oil

needles & syringes

baby wipes, facial wipes, wet wipes
& household cleaning wipes

dental floss

paper towels

hair balls & clippings

Q-tips &
cotton balls

condoms

cigarette butts

kitty litter

The **ONLY** things you should flush are human waste and toilet paper.
